INTERVENTIONAL CARDIOLOGY COUNCIL OF KERALA

Dear all,

At the outset we would like to thank you for the overwhelming response shown to ICCK 2023. The organizing team wholeheartedly welcomes all to the beautiful city of Thiruvananthapuram for the largest meeting in interventional cardiology in the state of Kerala.

As you are already aware, the day 1 of our conference is planned as “**Youth conclave – The fellow’s course**” where youngsters will have the opportunity to learn the tips and wisdom directly from the masters in the field. We have planned a simulator mediated learning session for the tricky topic of bifurcation stenting which is a first in ICCK. Hope it turns out to be useful to all.

The Day 2 is action packed and has many high-octane sessions and is called “**Battlefield -The main course**”. Expect exotic cases, brain storming sessions and demonstration of recent advances and technology.

Every battle should come to an end and peace and harmony should prevail. Hence the day 3 is titled as “**Battlefield – The conclusion**”. Top class sessions and high-quality presentations will continue on the day 3 also, but will conclude as a humble ceremony at 3.00 pm. Eager to meet you all. Pardon us for the shortcomings.
